EDUCATION

Cornell SC Johnson College of Business and Cornell Tech

Master of Business Administration — STEM Designated; Merit Scholar

New York, NY

05/2027

JSS Science & Technology University (Formerly SJCE)

Bachelor of Engineering — CGPA: 8.6

India

05/2020

PROFESSIONAL EXPERIENCE

IDfy

Mumbai, India

India's leading risk intelligence and fraud detection platform for enterprises.

Founding Product Manager (PM2)

04/2023 – 05/2026

- **IDfy Transaction Intelligence Platform: Lending intelligence platform generating 300+ credit decisioning signals**
 - Proposed and led it end-to-end from ideation to launch, impacting 7M+ loan applications in 20 months and scaling to \$550K Annual Run Rate; worked hands-on with Brand, Content, and Sales teams to set up the lead generation-to-conversion funnel.
 - Set up processes such as champion-challenger and data-annotation, working alongside ML and Data Analytics teams, to measure, monitor, and continuously improve 3 sequential small language models and the product, taking product accuracy to 94% within 8 months of launch.
 - Co-led a 17-member team alongside the Tech Lead, growing from a 2-person unit, to build a robust and scalable product in close collaboration with the CEO and Product leaders.
- **IDfy Site Scan: AI model trained to automate merchant classification for India's largest payment gateway**
 - Proposed and built the platform from 0 to 1 — 4M+ merchants onboarded in 3 years, \$200K Annual Run Rate, and compliant with Mastercard & VISA standards.

Salesroom (Acqui-Hired by IDfy)

Bengaluru, India

Pre-sales cataloguing and contract platform for high-SKU exporters.

Founder, Incubated at IIM Bangalore

11/2021 – 03/2023

- Built an end-to-end sales funnel and acquired 40+ enterprise clients, resulting in \$70K annual recurring revenue within 6 months of product launch.

Hewlett Packard Enterprise

Bengaluru, India

Software Engineer 1

01/2020 – 11/2021

- Designed firmware for HPE network devices and automated security workflows, enhancing reboot mechanisms for wireless devices.

ADDITIONAL INFORMATION

Patents

- **Context-Classified Transaction Categorization (Multi-Model)** — System patent. *Patent Filed, IND202521127036*
- **Automated Feedback for AI Model Training Using LLM** — Process patent. *Patent Filed, IND202521127035*
- **RFID-Based Offline Payment System** — System patent enabling transactions in low-connectivity rural environments. *Patent Granted, IND201941031689*

Pro-Bono

- Conducted technical workshops and industrial visits for undergraduate students on innovation and hands-on experimentation, mentoring a batch of 15 students as a senior for 2 years.

Interests

- Trekking — completed 4 high-altitude treks, including Himalayan peaks such as Brahmatal and Kedarkantha.
